PROSPECTS

Various cephalosporin products of the Group have been the result of the core crystallization technology. Since mid 2003, the Group has extensively increased the capital expenditure and expanded the production, thereby achieving noticeable effects. During the Reported Period, in response to the National Committee of Development & Reformation, PRC's announcement of an order to be complied of lowering the prices of 24 species anti-infective drugs in June 2004, the Group voluntarily carried the effect of price cuts reasonably further in order to have better connection with sales channels with a view to increasing market share and further reinforcing brand recognition. Despite the decline of net profit from the sales of powder for injection form in the first half year of 2004 as a result of its price cuts by order of the National Committee of Development & Reformation, PRC in the first half year of 2004, the Group is expecting that the sales in the second half year of 2004 is bound to increase significantly once the above-mentioned strategic programs are confirmed.

The directors of the Group noted the situation that numerous patents for antibiotics and system specific medicines possessed by multinational pharmaceutical companies gradually are being due to expire in few years ahead, compounded with global (Europe and Asia) trends of paramount expenditures on social medical care with succession of deficit account, where generic drugs with high quality at reasonable price would take the advantage to take part profoundly in the marketplace.

Since the Group became a listed group, with every effort that ensures a steady growth in mainland China's market share, the Group has been in the process of a global strategy that will lead the Group's products to the worldwide marketplaces, for which the Group has been preparing and in position to deal progressively with such aspects as quality standard recognition, legal documents preparation, carving out a niche and etc.

Meanwhile, the Group continues to recruit high-talented professionals with the expectation that the reinforcement of the expansion capability of higher profitable system specific medicine can be made more rapidly in the second half of year 2004. In addition, it is expected to be one of the lucrative sources of revenue.

The Group adopted sound financial strategy, and the credit terms granted by suppliers ranged from three to six months. In R&D projects and market explorations, application of funds also pursued for principles of efficiency. With respect to capital expenditures on constructions of production facilities, tenders for major construction projects will be invited from the public, so as to strictly control estimation, budget and finalisation of accounts.

The Directors consider it inappropriate to state the value of the options granted during the Reported period on the ground that a number of variables which are crucial for the valuation of the option value cannot be accurately determined. Apart from the aforesaid, at no time during the Reported Period was the Company, or its subsidiaries, a party to any arrangement to enable the Directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, and neither the Directors nor the chief executive, nor any of their spouses or children under the age of 18, had any interest in, or had been granted, or exercised, any right to subscribe for the securities and options of the Company and its associated corporation within the meaning of the SFO, or had exercised any such rights.

The Company was incorporated as an exempted company with limited liability in the Cayman Islands on 20 September 2002 under the Companies Law, Cap.22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands.

The companies comprising the Group underwent a reorganisation on 21 June 2003 to rationalize the Group's structure in preparation for the listing of the shares of the Company on the Main Board of The Stock Exchange of Hong Kong Limited, pursuant to which the Company became the holding company within the Group.

The Group is principally engaged in the development, manufacture and sale of non-patented chemical medicines including cephalosporins in sterile bulk medicine and powder for injection forms, their intermediate pharmaceuticals and system specific medicines in the People's Republic of China (the "PRC").

The shares of the Company were listed on the Main Board of The Stock Exchange of Hong Kong Limited on 11 July 2003.

The consolidated financial statements have been prepared by adopting uniting of interests method of accounting as a result of the Group Reorganization which involved entities under common control. Under this method, the Company has been treated as the holding company of its subsidiaries throughout the periods under review, rather than from the date of acquisition of the subsidiaries. The consolidated results, changes in equity, cash flows and the consolidated balance sheets of the companies now comprising the Group have been prepared as if the current Group structure had been in existence throughout the periods under review, or from the respective dates of establishment/incorporation of the companies now comprising the Group, where this is a shorter period.

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board, the disclosure requirements of the Hong Kong Companies (Amendment) Ordinance 2003 and the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

All significant intra-group transactions and balances have been eliminated on consolidation.

2. Principal accounting policies

The principal accounting policies and methods of computation adopted for the preparation of the interim financial statements are same and consistent with those adopted by the Group in its audited annual financial statements for the year ended 31 December 2003.

4. Tax

(a) *Major component of income tax expense*

The income tax expense charged to the consolidated income statement during the period ended 30 June 2004 was as follows:

	For the six months ended 30 June	
	2004	2003
	Rmb'000	Rmb'000
	(Unaudited)	(Unaudited)
Income tax expense	1,540	6,329
Tax refund	(1,871)	—
	(331)	6,329

No provision for Hong Kong profits tax has been made as the Group had no profits arising in Hong Kong during the six months ended 30 June 2004.

According to the Income Tax Law of the PRC, four subsidiaries of the Company, namely Suzhou Dawnrays Pharmaceuticals Co., Ltd (“Suzhou Dawnrays Pharmaceuticals”), Suzhou Dawnrays Chemical Co., Ltd (“Suzhou Dawnrays Chemical”), Suzhou Dawnrays Pharmaceutical Technology Co., Ltd (“Suzhou Dawnrays Technology”) and Shanghai Dawnrays Chemical Co., Ltd (“Shanghai Dawnrays Chemical”), which operate in approved economic development zones of the PRC, are exempted from corporate income tax of the PRC for the two years starting from the first profitable year of operation, after setting off losses carried forward, and are entitled to a 50% relief from corporate income tax of the PRC for the following three years.

Suzhou Dawnrays Pharmaceuticals is in its fourth profitable year in 2004 and therefore the applicable corporate income tax rate of the PRC is 12%. However, Suzhou Dawnrays Pharmaceuticals obtained tax approval from the relevant tax authorities as it qualified as a foreign owned manufacturing enterprise engaging in technology-intensive and knowledge-intensive projects (“Double-intensive Enterprise”). According to PRC tax laws and regulations, Suzhou Dawnrays Pharmaceuticals is subject to the corporate income tax of the PRC at a rate of 7.5% from 1 January 2003 to 31 December 2005, and it will be subject to the corporate income tax of the PRC at a rate of 15% from 1 January 2006. Its status as a Double-intensive Enterprise is subject to periodic reassessment by the relevant PRC government authorities.

The paid up capital of Suzhou Dawnrays Pharmaceuticals was increased by US\$15,000,000 from US\$10,000,000 to US\$25,000,000. According to PRC tax laws and regulations, profits generated from the aforesaid additional capital is exempted from corporate income tax of the PRC for the two years starting from the first profitable year of operation, and is entitled to a 50% relief from corporate income tax of the PRC for the following three years. Thus profits generated from the aforesaid additional capital is exempted from corporate income tax of the PRC starting from 1 January 2004 up to 31 December 2005 and will be subject to the corporate income tax of the PRC at a rate of 7.5% from 1 January 2006.

Shanghai Dawnrays Chemical is in its third profitable year based on the income for statutory financial reporting purposes. It is subject to the corporate income tax of the PRC at a rate of 12% and local corporate income tax at a rate of 1.5% from 1 January 2004 to 31 December 2006.

Suzhou Dawnrays Chemical and Suzhou Dawnrays Technology had no assessable profits and therefore, no provision for income tax has been made during the Reported Period.

No provision for deferred tax has been made as the net effect of all temporary difference is immaterial.

The reconciliation between tax expense and the product of accounting profit in the accompanying consolidated results of operation multiplied by the applicable income tax rate is as follows:

	For the six months ended 30 June	
	2004	2003
	Rmb'000	Rmb'000
	(Unaudited)	(Unaudited)
Accounting profit in the accompanying consolidated income statement	<u>38,780</u>	<u>53,632</u>
Applicable income tax rate	7.5%	12%
Tax at effective rate	2,908	6,436
Tax effect of income and expense items which are not assessable or deductible for income tax purpose	<u>(1,368)</u>	<u>(107)</u>
Current tax expenses	<u>1,540</u>	<u>6,329</u>

(b) *Tax refund*

As Suzhou Dawnrays Pharmaceuticals was granted the approval as Double-intensive Enterprise, as mentioned above, a refund of the excess of corporate income tax paid in 2003 in relation to the aforesaid reduced corporate income tax rate amounted to Rmb4,967,000 has been received by Suzhou Dawnrays Pharmaceuticals in July 2004.

Pursuant to board resolutions of Suzhou Dawnrays Pharmaceuticals dated 15 December 2003 and 8 March 2004, Suzhou Dawnrays Pharmaceuticals declared a dividend of Rmb82,205,630 to Dawnrays International Company Limited pertaining to the year ended 31 December 2003. Pursuant to board resolutions of Dawnrays International Company Limited dated 18 December 2003 and 9 March 2004, Dawnrays International Company Limited re-invested the aforesaid dividend of Rmb82,205,630 into Suzhou Dawnrays Pharmaceuticals. Such profit re-investment was approved by the Ministry of Commerce of the PRC in June 2004. According to PRC tax laws and regulations, a tax refund in relation to the aforesaid re-investment amounted to Rmb9,708,000 was accrued in year 2003, based on the then effective corporate income tax of the PRC of 12%. Owing to the aforesaid Double-intensive Enterprise tax concession obtained in 2004 which would have retroactive effect from 1 January 2003, the tax refund in relation to the aforesaid re-investment would be reduced to approximately Rmb6,612,000. The over-accrued tax refund amounted to Rmb3,096,000 was charged to tax expense during the Reported Period.

The net tax refund was therefore Rmb4,967,000 less Rmb3,096,000 equalled Rmb1,871,000.

The contribution surplus of the Company represents the excess of the then consolidated net assets of the subsidiaries acquired pursuant to the Group Reorganization, over the nominal value of the Company's shares issued in exchange therefor.

12. Share Option Scheme

The Company operates a share option scheme (the "Share Option Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Share Option Scheme include the Company's directors and other employees of the Group. The Share Option Scheme was adopted on 21 June 2003 and will remain in force for 10 years from that date.

The financial impact of share options granted under the Share Option Scheme is not recorded in the Group's balance sheet until such time as the options are exercised, and no charge is recorded in the income statement or balance sheet for their cost. Upon the exercise of share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which are cancelled prior to their exercise date, or which lapse, are deleted from the register of outstanding options.

The Company granted options on 11 November 2003 (the "Date of Grant") to 456 employees (including directors) to subscribe for 40,000,000 shares of the Company at exercise price of HK\$0.83 per share.

15. Financial instruments

Financial risk management objectives and policies

The Group is exposed to market risk, including primarily changes in interest rates. The Group does not hold or issue derivative financial instruments for trading purposes.

Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to the Group's interest-bearing bank loans and borrowings.

The Group does not hedge interest rate fluctuations.

Exchange rate risk

The Group did not have significant exposure to market risk for changes in foreign currency exchange rates during the Reported Period.

Credit risk

Credit risk arising from the inability of a counterpart to meet the terms of the Group's financial instrument contracts is generally limited to the amounts, if any, by which the counterpart's obligations exceed the obligations of the Group. The Group minimizes its exposure to credit risk by only dealing with counterparts with acceptable credit ratings.

Net fair values

The aggregate net fair values of the financial assets and financial liabilities of the Group are not materially different from their carrying amounts.

Credit risk exposures

The Group's maximum exposure to credit risk (not taking into account the value of any collateral or other securities held) in the event that the counterparties fail to perform their obligations as of 30 June 2004 and 31 December 2003 in relation to each class of recognized financial assets is the carrying amount of those assets as indicated in the balance sheets.

Significant concentrations of credit risk

Concentration of credit risk exists when changes in economic, industrial or geographic factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Group's total credit exposure. Significant concentration of credit risk arises from exposure to substantial amounts due from hospitals and medical institutions operating in the PRC.
